## Preview of November Meeting

### **From Spend Down to Mission Readiness**

Facility Asset Management/Facility Life-Cycle Cost Management

*Presented by: MACTEC*

#### Objective

Provide insight into the way web based enterprise systems can and will leverage the Engineered Management System technology to produce closed loop processes that enable linkage between facility and infrastructure condition to a Mission Readiness Index.

#### Abstract

"You can't manage what you don't measure" This session will look at the 23 data elements required by Executive Order 13327 and highlight those that represent departure from the status quo. These data can now be acquired in a process that leverages the Web, and the development of Engineered Management Systems (EMS) powered by robust financial engines.

## What's Coming Up...
